EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Kesterson on 12/1/03.

The application has been amended as follows:

Claim 1, lines 5 and 6, delete "above said first dielectric layer"

Claim 15, add "." At the end of the claim.

2. The following is an examiner's statement of reasons for allowance: applied prior art, Lou, doesn't suggest or teach physical vapor depositing a TiN layer to obtain a liner having a very poor step coverage such that the top surface of the top dielectric layer is covered with a layer of TiN and the sidewalls of the at least one trench are substantially covered with a layer of TiN while the bottom of the at least one trench is left substantially free of TiN during the PVD deposition. Lou teaches the bottom of the trench is covered with TiN during the PVD deposition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
